The screenshot shows the IBM Db2 on Cloud console interface. The top navigation bar includes tabs for Load Data, Load History, Tables, Views, Indexes, Aliases, MQTs, Sequences, and Application objects. The 'Tables' tab is selected, displaying a table named 'KMZ12090.USER'. The table has four columns: USERNAME, EMAIL, PASSWORD, and ROLL NUMBER. The data row shows 'pream' as the username, 'pream12@gmail.com' as the email, 'pream12' as the password, and '1' as the roll number. A 'Back' button is located in the top right corner of the table view. Below the table, there is an 'Export to CSV' button with a download icon. The bottom of the screen shows a Windows taskbar with various application icons and system information including the date and time (10/26/2022, 2:15 PM).
